   ◇ Connect Mp3 Player to PC
   ◇ Take off the cover and connect to PC via USB plug
   ◇ Click "My Computer" to find "Removable Disk"
   ◇ Transfer songs of MP3 or WMA format from your computer to your mp3 player.

NOTICE:

   To save energy, the player will turn off automatically in stop status without use after 30 seconds.

Driver Installation

1.Windows 98 /98SE Installation
a.Insert driver CD disc into your CD ROM to start up:\WINDOWS 98 DRIVER\ Setup.exe
b.A menu will automatically pop up
c.Select Install / Remove Driver to start installation
d.Follow the on-screen instruction to install the driver
e.Click "OK" to restart. (Must restart to complete installation), illustration 1
f.After restart, insert SPORT MP3 to the USB port on your computer/laptop. Windows will automatically detect the new hardware. If setup is correctly performed as instructed, you should find two "Removable Disks" shown in "My Computer".

2.Windows ME /Windows XP /Windows 2000 Installation
For these operating systems, NO Driver is required because Windows has a built-in driver that supports your unit. Simply plug your device into the USB port and the operating system will recognize it. Next you will see two "Removable Disks" drives in My Computer.

3. Linux 2.4.0 + / Mac 8.6 + Installation
No Driver is required for these operating systems. Simply plug the device into the USB port and the system will automatically find it.
